About Us

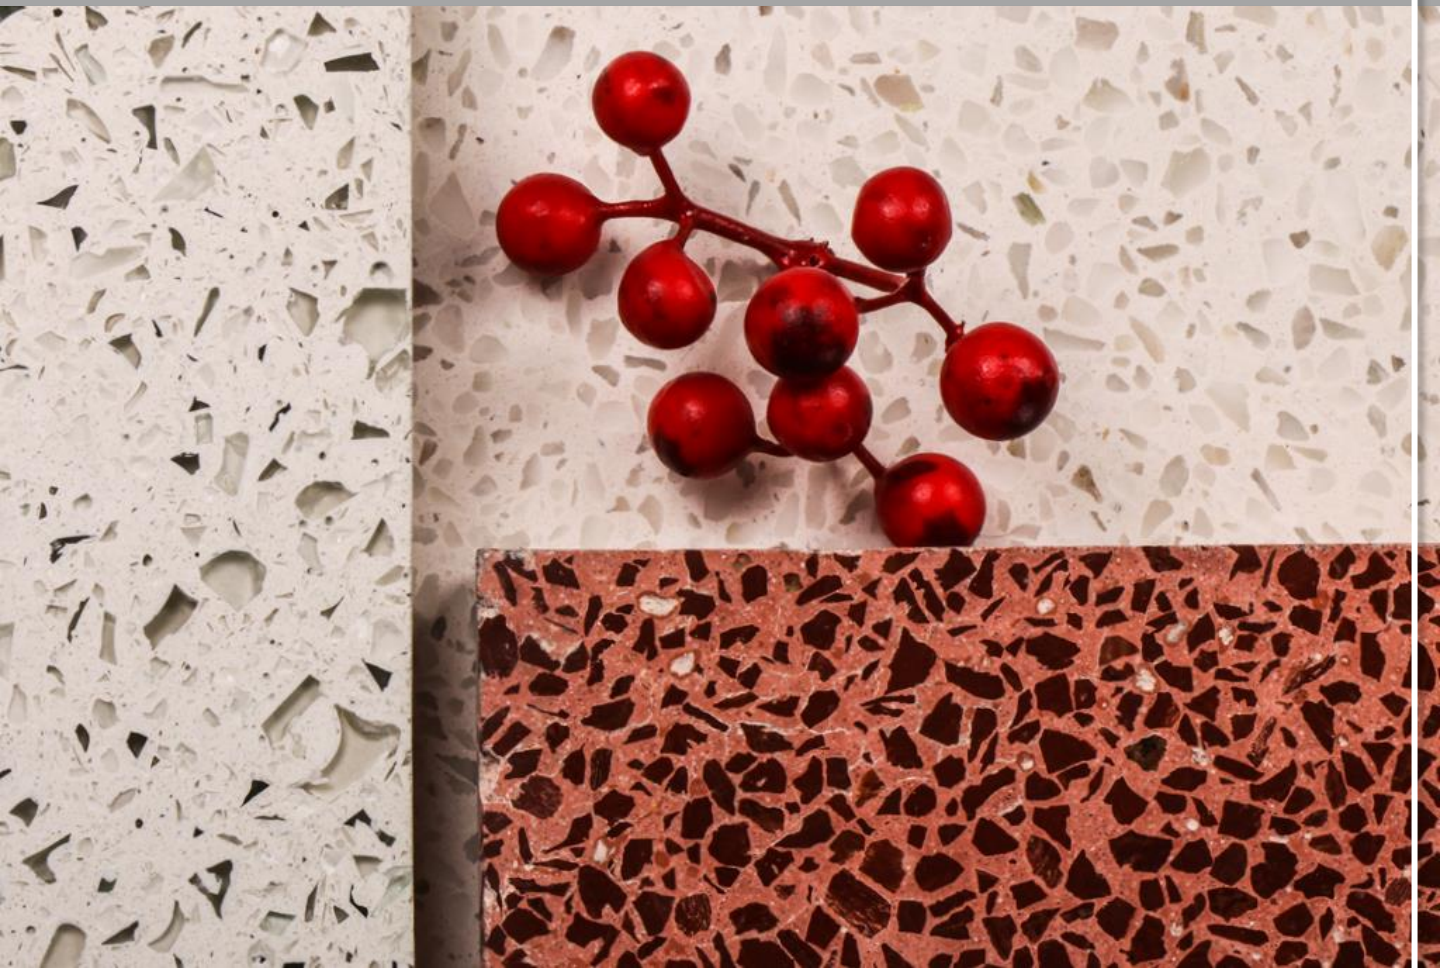

The design label from Delhi, India comes forth with a new fresh product line in cement based materials. At Parman Designs, we are creating minimalist concrete pieces, exploring different textures, colors & forms while keeping true to the nature of industrial concrete. Each piece is made by hand no two are the same.

Concrete is commonly seen as a man-made, industrial product, at odds with nature. At parman designs, we are working to unify these two opposites. We pride ourselves on our meticulous attention to detail & quality craftsmanship.

We do customize table tops, furniture, art pieces, lighting and anything you can imagine in concrete and terrazzo for residential & commercial properties. We do customize cement color and designs.

Our collaborative approach to the design process, make your concrete pipedream a reality. If you do get around seeing our products, we hope you bring home with you not just our creations, but a deeper love to pursue life with meaning.

**We are makers, explorers, dreamers &
lovers of everything Beautiful.**

We are specialized in doing best quality Terrazzo & Concrete Floors, Walls, Benches, Lamps, Wall Panels, Table Tops, Art Pieces,, Lighting, indoor and outdoor furniture for residential and commercial properties.
